Pravin Tube (INDIA) Is one of the Leading Supplier Of Copper Tube & Copper Pipe To INDIA And Many Countries Worldwide.

PRAVIN TUBE (INDIA) -RANGES IN BRANDS WITH REPUTATION AND VERSATILITY

With a reputation for product excellence and reliability, Pravin Tube (INDIA) offers

customers a wide range of plain, plastic coated and special finish copper tube for diverse

applications including gas, water and sanitation systems.

Pravin Tube (INDIA) can be trusted to convey safely a diversity of fluids and gases ranging

from liquid nitrogen at -196°C to high pressure steam at $+205^{\circ}\text{C}$.

Professional installers and designers will be familiar with most of the relevant methods of

copper installation and codes of practice that will ensure optimum product performance.

However, if advice is required regarding the selection and suitability of materials or specific

installation procedures, guidance can be sought from our Technical Services Department.

Our products:

Copper tubes & coils

Pancake coils are typically used in the installation of air conditioning and refrigerator systems. These are also used in OEM end uses. Pancake coils are provided in a flat coil which are one or two layers thick. Bunch coils are similar to pancake coils, but all of the individual loops have the same diameter much like the coil of wire.

size ranges

MIN. DIAMETER - 3/16" (4.76mm) MAX. DIAMETER - 7/8" (22.22mm)

Standard available length is 50 feet. Lengths ranging from 2 meters up to 100 meters as per client's requirement in

Copper pipes :

Straight length tubes are mechanically straightened and then cut to specific lengths as specified by the customer.

StraightLengthTubes-are produced in the following outside diameter and size ranges.
